

## Gate Fold Brochure

### Inside of a gate fold brochure

**Example: Set up document with 2 pages at 10.875" x height. Pull in guides to separate panels. Do not create a new page for each panel. When the 2 outside panels fold in, there should be  $1/8$ " gap down the middle.**

When the two outside panels fold together, there should be  $1/8$ " gap down the middle. The two panels should not touch.
